On that come and get it day.

Won't it be fun when worry is done and money is hay.
That's the time things'll come your way
On that great, great come and get it day.

I'll get my gal that calico gown.
I'll get my mule that acre of ground

'Cause word has come from Gabriel's horn
The earth beneath your plow is a-buddin'
And now it's yourn.

Glory time's comin' for to stay
On that great, great come and get it day.

On that great, great, great come and get it day,
Won't it be fun when worry is done and money is hay.
That's the time things'll come your way
On that great, great come and get it day.

I'll get my gal that calico gown.
I'll get my mule that acre of ground

'Cause word has come from Gabriel's horn
The earth beneath your plow is a-buddin'
And now it's yourn.

Glory time's comin' for to stay
On that great, great come and get it day.
