To love and be loved  
That's what life's all about  
Keeps the stars coming out  
What makes a sad heart sing  
The birds take wing

To love and be loved  
That's what living is for  
Makes me want you the more  
The more we cling

Let others race to the moon  
Through time and space to the moon  
My goal is greater than this

To reach your lips, to share your kiss  
To stay in your arms is the dream I pursue  
To be sheltered and safe from the storm  
To be cozy and ever so warm

And for always to love  
And be loved by you
