Once I could see, once I could feel
Now I am numb and I've become unreal
I walk the night without a goal
Stripped of my heart and my soul
What now my love, what now my love, now that you've
left me
How can I live, how can I live through another day
Watching my dreams turning into ashes
And all of my hopes, all of my hopes into bits of clay
Once I could see, once I could feel
Now I am numb and I've become unreal
I walk through the night without a goal
Stripped of my, my heart and my soul
What now my love, what now, what now
What now, what now, now that it's over
What now, what now, what now, what now
I feel the whole world falling all around me
Here comes the stars, falling around me
There's the sky, where the earth ought to be
What now my love, now that you're gone
I'd be a fool to go on and on and on
And on and on, and on and on, and on and on, on
No one would care, nobody's gonna cry
If he should live, live or die
What now my love, now there is nothing
Only my last, my last goodbye, my last goodbye
