When love comes again, I'll make it stay  
I won't be a fool and send it away  
How could I know that I'd want you so  
After we said goodbye

It's hard to believe that we're really through  
It's hard to conceive my world without you  
I thought I'd wait and now it's too late  
My song of love is a sigh

Though I've tried to keep the tears inside  
You just can't put aside a heart in pain  
People say the teardrops seldom stay  
And hearts that cry today may love again

So I'll just go on dreaming my dreams  
And maybe someday, as strange as it seems  
My heart will sing and I'll know it's spring  
When love comes again

When love comes again, I'll make it stay  
I won't be a fool and send it away  
How could I know that I'd want you so  
After we said goodbye

It's hard to believe we're really through  
It's hard to conceive my world without you  
I thought I'd wait and now it's too late  
My song of love is a sigh

Though I've tried to keep the tears inside  
You just can't put aside a heart in pain  
People say the teardrops seldom stay  
That hearts that cry today may love again

So I'll just go on dreaming my dreams  
And maybe someday, as strange as it seems  
My heart will sing and I'll know it's spring  
When love, when love comes again
