"Why Remind Me"

(Why remind me) the way we used to talk and laugh,
I don't need any photograph to think of you [think of
you],

(Why remind me) the way we danced the whole night
long,
I don't need records of our song to sing it through.

I don't need books of matches to remember our cafe.
What earthly good are matches to a flame of
yesterday?

(Why remind me) I know our love has played its part,
I'm only asking of my heart to stop reminding me of
you.

(Instrumental)

(I don't need any matches to remember our cafe.)
(What earthly good are matches) to a flame of
yesterday.

(Why remind me I know our love has played its part,)
(I'm only asking of my heart) to stop reminding me of
you,

It just keeps reminding me of you.
