not on 'til ten but it's gonna be good two niggers gonna  
beat eachother raw

agree it's gonna be the  
best one yet no need for boredom we've got real life  
adventure with a pounding

fresh ways to shop in full  
stereo live action dramas where the cops beat up real

joystick and you can too don't wake the neighbors  
when we take you in the dead  
of night.
