Tonight though I'll tell you one thing about these New York crowds  
Some of them, they get too carried away you know  
because they think Frank Zappa is such a mad man  
You know they come here to see him go crazy or something you know  
They don't realise there's notes are involved you know  
I told you the first time I met you, you remember that what I said.

You want to be in the band!

No well, I wouldn't do that to you man, I would try out for the band but I wouldn't ...

I'll try you out

I don't sing

What do you mean you don't sing, I've heard you sing  
Sing Baby Snakes
