FZ: We're gonna put a little motor in 'em

Spider: We're gonna put a little motor in 'em

John: I could have all sorts of different kinds of names for the motors . . . although the motors would be the same . . .

Spider: There's dry motors and wet motors, right?

John: Right

Spider: The motor for a bill is a dry motor, so after they put that thing in there for about half an hour, they suddenly can't stand it without having a wet motor too. So, if they try to get away with spending only a bill, they end up spending about five 'cause they gotta get this, this four bill wet motor

John: Good idea

Spider: Now we have a damp motor for the ones who aren't sure

Moon: . . . it's about letting go . . . we're all, we're all inside the piano . . . we're all . . . looking for a place . . . inside the piano . . . or a place to be alone . . .

Ali: Bu pianonun icinde bir meyhane olsa, bir kahve icin oturpda, azicik tavla oynasak nekadar guzel olur, degilmi abi?
