It's so emotional what I'm feelin'
I never been put between a hard place and a rock
I know she's cheatin' and I wanna have him
But she's my friend

[Chorus]

I know that she's my girl
I know that he's her man
But I been dreamin' of
A stormy love affair
But she does him so wrong
I wanna treat him right
I know that she's my girl
But I wanna be with him

She's.... not in love with him
He's a hobby to her
And I wanna be the one
To make him happy
All the time
We're a perfect fit but, I know

It just wouldn't be right

[Chorus]

I'm faced with a dilemma
Don't wanna lose my girl
I don't know what to do (to do)
But I wanna be with...
Him, he's sexy
Him, he's classy (classy)
Him, he fits me
Him, 'cause I wanna be with him
I get along with Him
We should be more than friends (more than friends)
It is just what it is (it's just what it is)

[Chorus] to end
