She's alive screamed Dr. Frankenstein
From his laboratory, this dead body I'll
Give it life
This monster's gonna be your bride

All these stitches in your face, hold it all
In place
I only wanna destroy life so then I can
Recreate
You're a walking beauty queen built from
Dead things
But I didn't give you a heart
And left you with a thousand scars

And now here comes the bride
On this horrifying night

She's the bride, she's the bride
She's the bride of Frankenstein

Dig up bodies from their graves
Or on the gallows where they hang
I making monsters from a 1000 dead
Corpses
Is my only claim to fame
All the beauty lies behind the blood, guts
And gore
I know you can't buy love
That's why I made a monster

And now the wedding bells are ringing
On this horrifying night
