LIES!

Tired of the lies from the congregation
Listen up fuckers it's time to be rude
God is nothing more than a human creation
Science is the only voice than can speak the truth

Evolution

This is how we came to be
Mass confusion
Your God Complex a mockery
Blinded by the faith in your own salvation
Ignoring all the facts is a way of life
Selfless but insane is the declaration
That God's the only door to the way and the light

Evolution

This is how we came to seed
Mass confusion
Your God Complex a mockery

It's time to put an end to this profanation
By destroying this cognitive exploitation
Wisdom is the key to your liberation
Open your eyes and see the truth

God is a fake
It is a gospel of hate
Annihilate
This disease of the mind

It's time to put an end to this profanation
By destroying this cognitive exploitation
Wisdom is the key to your liberation
Open your eyes and see the truth

Tired of the lies from the congregation
Listen up fuckers it's time to be rude
God is nothing more than a human creation
Science is the only voice than can speak the truth
