Momma said please as she fell to her knees  
Saying that she always loved me  
Got to get notes, anything to a whore  
I gave her what they gave to me

And now you can't change what's bin done and done  
I never knew killing momma was a so much fun  
I dismember momma, yer well now she didn't even  
make a sound  
I dismember momma, yer well now she's lying all  
around the ground

The devil told me what to do and i did  
I cut off her head to her ear  
She didn't get nothing that she didn't get  
Its you or it is them

And now you can't change what's bin done and done  
I never knew killing momma was a so much fun  
I dismember momma, yer well now she didn't even  
make a sound  
I dismember momma, yer well now she's lying all  
around the ground

I dismember momma, yer well now she didn't even  
make a sound  
I dismember momma, yer well now she's lying all  
around the ground
