across the galaxy
proceeding with plan nine
to resurrect the dead
and bring them back to life
invasion planet earth
from the unfriendly skies
the recently deceased
will rise before your eyes

so lock your doors honey crawl under your bed
the aliens are here to resurrect the dead
now can the earth withstand it's galactic fate
the horrors of plan nine from outerspace

they're crawling from the grave
now can earth be saved
from the master plan
plan nine from outerspace
and now the earthlings scream
they're running for their lives
you're all so stupid yeah
stupid stupid mind's

so lock your doors honey crawl under your bed
the aliens are here to resurrect the dead
now can the earth withstand it's galactic fate
the horrors of plan nine from outerspace

so lock your doors honey crawl under your bed
the aliens are here to resurrect the dead
now can the earth withstand it's galactic fate
the horrors of plan nine from outerspace
from outerspace
from outerspace
from outerspace
from outerspace
