"Smother My Brother"

You stupid dick, you fucking prick
You make me sick, so fucking sick
I'll put a pillow on your face
And smother it... yeah

It would be nice to end your life
No holidays, get togethers
You smother underneath a pillow
Filled with feathers

In your room I'll creep
As you fucking sleep
I'll take your pillow case
And place it comfortably in your face

I'm gonna smother my brother

Brotherly love, who gives a fuck
I put a pillow upon your face
I hold it there till you're
Blue in the face... yeah

Do unto others, as they do unto you
My brother fucked me too many times
And now I'm gonna fuck him too... alright!
