c'mon trick or treeters the light is on
i welcome every boy and girl up into my home
because after all it is halloween night
i guarentee a razorblade up in every bite

you bite your nails as you walk up the steps
behind door number one is the lunatic
and what you don't know is that your goody bag
is gonna soon become your body bag

trick or treat, smell my feet, oh yeah
give me something good to eat, say ahhh
no more trick or treats
the last halloween
no more trick or treats
the last halloween

i'm all dressed up i got my costume on
i'm putting needles in the gum and the candy corn
don't worry boys and girls it's only for one night
but that's all it takes to end your life

trick or treat, smell my feet, oh yeah
give me something good to eat, say ahhh
no more trick or treats
the last halloween
no more trick or treats
the last halloween
