turned on the tv they said don't be afraid
the already dead's returning from their graves
so lock your windows and bolt all your doors
load up the shotgun now
let's bring on the gore and i said

hey hey hey they only wanna eat your brain
hey hey hey mama those were the days
of the dead

their creeping up the porch now heading for the door
i pump the shotgun and point it toward the door
they try and tear it down begging for some brains
no way their getting mine
there ain't no fucking way and i said

hey hey hey they only wanna eat your brains
hey hey hey mama those were the days
hey hey hey they only wanna eat your brains
hey hey hey mama those were the days
of the dead
dead, dead
ow ow ow

hey hey hey they only wanna eat your brains
hey hey hey mama those were the days
and i said hey hey hey they only wanna eat your brains
hey hey hey mama those were the days
of the dead
dead, dead
