I don't want your problems, I'm so sick of this  
Cos all i see is dirty green hands  
You can't believe what you see  
The understanding is that we are the victim!  
You say what you want,  
Then leave the pieces

Hey we are the victims  
Hey we are the victims  
Hey we are the victims  
We'll pick up your pieces!

I don't want your problems, I'm part of it  
The reason you are kicking and screaming like a  
BITCH!  
Rather watch you suffer, watch you drown inside  
The hatred and the shame you project into our eyes.
