Wow!

On again, ...are you still smoking now? ...are you still smoking?

I don't care what you do honey
you can even spend my money... now
this boring night has passed me by
I'm Sick and tired just getting high

Life is hard and mean and tough
But sometimes love is not enough

I don't wanna spend all my days
rolling around in a Purple Haze, Purple Haze.

You make me Delirious but I could never get serious
over you
You make me Delirious but I could never get serious
over you

Delirious

I can see your body getting sicker girl
from all those devil pills and liquor
and in your head, its in a mess
So stop all this destructiveness

Delirious, Delirious, Delirious, Delirious.

You make me Delirious but I could never get serious
over you
You make me Delirious but I could never get serious
over you

I might as well get me a gun but when all is said and
done
life can be fun, life can be fun

Delirious

You make me Delirious but I could never get serious
over you
You make me Delirious but I could never get serious
over you

Life is hard and mean and tough
But sometimes love is not enough

I don't wanna spend all my days
rolling around in a Purple Haze, Purple Haze.

Now... And Go.. Its still smoking

You make me Delirious but I could never get serious
over you
You make me Delirious but I could never get serious
over you

Delirious, Delirious, Delirious, Delirious

You may be Delirious
