[Introduction]

Two hearts are better than one  
Four lips are sweeter than two  
Come close to me  
Let's kiss and see  
What togetherness can do.

Two dreams are better than one dream  
Four arms can make them come true  
Let's pool our love  
Follow the school  
Of togetherness right through

There's strength in numbers  
Everybody knows  
Between us we'll have  
Twenty fingers, twenty toes

No one should ever be lonely  
No one should ever be blue

Love's not for one  
It's made for two  
So togetherness, find togetherness for two.

Let's pool our love  
Follow the rule  
Of togetherness right through

There's strength in numbers  
Everybody knows  
Between us we'll have  
Twenty fingers, twenty toes

No one should ever be lonely  
No one should ever be blue  
Love's not for one  
It's made for two  
So togetherness, try togetherness for two.
