Yeah, mmmmm
Yo, this joint right here (mmmmm, mmmmmm)
Is one of them feel good joints (oh oooooohhh)
Relax your mind, just relax your mind (oh yeah)
This is Mario Winans
And yo Frankie, sing it

Girl you've been kicking it with me
Constantly
For a while
You just can't wait to hear those
Three little words
Come from my mouth, yeah

I just can't tell you
Or find the words for
The way I feel about you
I just can't be without you
I wanna say so bad
But something is telling me no
Contemplating, still debating
Should I just let it go

I just can't say it's love
But you already know what's up
I really can't put it in words
Baby you've got to feel me
And I hope you can hear me
It's only you I'm thinking of
But still I just can't say it's love

You probably think I'm running game
But that ain't the case (not the case)
I'm just not sure (no)
See I've made that mistake before
Don't wanna hurt no more, babe
I wanna take my time with you (oh yeah)

I just can't tell you (I just can't tell ya)
Or find the words for (just can't find the words to say to
you baby)

The way I feel about you
I just can't be without you (ooohh)
I wanna say so bad
But something is telling me no (say it right now)
Contemplating, still debating
Should I just let it go

I just can't say it's love (I just can't say)
But you already know what's up (oh yeah)
I really can't put it in words (oooh yeah)
Baby you've got to feel me
And I hope you can hear me (hope you can hear me,
yeah)
It's only you I'm thinking of (oh)
But still I just can't say it's love (say it's love)

No matter if I wait
This still could be our fate
Girl I get so frustrated (so frustrated)
My mind, my heart can't take it (oh no)
Just like the sun has the moon (sun has the moon)
Baby I want you (I want you)
But I just can't say I love you (oh baby)

I just can't say it's love (I can't say it)
But you already know what's up (I don't love you)
I really can't put it in words (I just can't put it in words)
Baby you've got to feel me
And I hope you can hear me
It's only you I'm thinking of (yeah)
But still I just can't say it's love

I just can't get with it
Don't wanna to admit it
Never hear me say it
Just can't say it's love
I just can't get with it
Don't wanna admit it
No, you'll never hear me say it
