Yeah, come on
It's a Night and Day Production
Mmmm, woooo
Uh, Frankie J
Yeah mmmm mmm oh
Yeah mmmm

There's this girl I saw
She's about 5'6"
No doubt she's sexy, yeah
She just stepped up in the club
Right across the way from me
Shorty got me checkin' for her

I don't know a thing about this girl (this girl)
But I know she's something serious (yeah)
Don't wanna push up on her too fast
But I gotta have her, yeah
And then I said

Can I get your number please
Would you spend time with me
Girl I saw you and you caught my eye
And I really wanna know you
Saw you when you first stepped in
And I knew right there and then
Baby it's the way you make me feel
I'm your number one fan

Now I done seen a lot of things
But I never seen a girl so perfect for me
So it's time for me to do the do
Tell her what she does to me
Feelin' so much pressure
But I gotta make my move (oh)

I don't know a thing about this girl (this girl)
But I know she's something serious (somethin' serious,
oh)
Don't wanna push up on her too fast (yeah)
But I gotta have her, yeah

So I had to say

Can I get your number please
Would you spend time with me (I'm a fan)
Girl I saw you and you caught my eye
And I really wanna know you
Saw you when you first stepped in (oh I saw you when
you first stepped in)
And I knew right there and then
Baby it's the way you make me feel (that's the way that
baby makes me feel)
I'm your number one fan

She's like my favorite thing
Nothing I've ever seen
She's like them girls in the magazines
If she take a chance with me
I'd give her everything, yeah
I'm tellin' you that she is the one (yo yo yo yo)
For me

Can I get your number please
Would you spend time with me (time with me, yeah)
Girl I saw you and you caught my eye
And I really wanna know you
Saw you when you first stepped in (I really wanna know
your number babe)
And I knew right there and then
Baby it's the way you make me feel (that's the way that
baby makes me feel)
I'm your number one fan (oh yeah)

Can I get your number please (number number
number)
Would you spend time with me (you're just what I need)
Girl I saw you and you caught my eye
And I really wanna know you (yeah yeah yeah yeah
yeah)
Saw you when you first stepped in
And I knew right there and then (makes me wanna get
your autograph)
Baby it's the way you make me feel
I'm your number one fan ('cause I'm your number one
fan, yeah)
