Laugh like the head of Apollo  
Young and strong on the wings of tomorrow  
Rise up in millions get off your knees  
Dispelling the demons

In the valley of danger we all work together  
Sculptures in sorrow love light to follow, on  
Sweet head of Apollo

(Rage hard)  
Into the light  
(Rage hard)  
Doing it right, doing it right  
(Rage hard)  
Against the dark  
(Rage hard)  
Make your mark

Let the tournament begin  
Don't give up and don't give in  
Strength to rise up, strength to win  
Strength to save the world from losing

(Rage hard)  
Into the light  
(Rage hard)  
Doing it right  
(Rage hard)  
Against the dark  
(Rage hard)  
Rage  
(Rage hard)

Though blue eyes of children they shine without fear  
Hope is the future, with oceans of cheer  
(Nothing to fear)  
There's nothing to fear

Laughter of angels resounding from heaven  
Fighting the favors of charlatan saviors  
Charlatan saviors

(Rage hard)  
Into the light  
(Rage hard)  
Doing it right, doing it right  
(Rage hard)  
Against the dark  
(Rage hard)  
Make your mark

Let the tournament begin  
Don't give up and don't give in

(Rage hard)  
Into the light  
(Rage hard)  
Doing it right  
(Rage hard)  
Against the dark  
(Rage hard)  
Make your mark

I don't know which way to go  
My love's like driven snow  
We'll be free

Young and strong on the wings of tomorrow  
(Rage hard)  
(Rage hard)

Let the tournament begin  
Don't give up and don't give in  
(Rage hard)  
Into the light  
(Rage hard)  
Doing it right  
Let the tournament begin  
(Rage hard)  
Don't give up and don't give in  
Strength to rise up, strength to win  
Strength to save the world from losing
