Chorus:

She's got me thinking about a scandal,
She's got me running around,
Magazines, columns, trying to figure it out!
Pictures like the paparazzi... down the freeway,
She's got me thinking about a scandal!
She's got me thinking about it,
She's got me thinking about it!
Got me thinking, got me thinking,
Got me thinking about it!
She's got me thinking about it,
She's got me thinking about it!
Hey! she's got me thinking about a scandal!

She's got the body of a goddess, and I won't deny,
She's got me calling me baby, she now she's cut my
eye!
Can't get her out my head, can't seem to let her go,
And when I hear her talking I know it's more than
physical.

She's in the flashing lights, she's in the spot light,
She's trying so right, she knows when it's all right!
I'm gonna take my time, I'm gonna take it slow,
I close my eyes, she says she's thinking about a
scandal!

Chorus:

She's got me running around,
Magazines, columns, trying to figure it out!
Pictures like the paparazzi... down the freeway,
She's got me thinking about a scandal!
She's got me thinking about it,
She's got me thinking about it!
Got me thinking, got me thinking,
Got me thinking about it!
She's got me thinking about it,
She's got me thinking about it!
Hey! she's got me thinking about a scandal!

She told me she had a thing for all them fancy cars,

And now she's telling she wants to go and knock the stars,
In fancy restaurants, we make it fast food,
I gotta get her home, so we could make a movie too!

She's in the flashing lights, she's in the spot light,
She's trying so right, she knows when it's all right!
I'm gonna take my time, I'm gonna take it slow,
I close my eyes, she says she's thinking about a scandal!

Chorus:

She's got me running around,
Magazines, columns, trying to figure it out!
Pictures like the paparazzi... down the freeway,
She's got me thinking about a scandal!
She's got me thinking about it,
She's got me thinking about it!
Got me thinking, got me thinking,
Got me thinking about it!
She's got me thinking about it,
She's got me thinking about it!
Hey! she's got me thinking about a scandal!

Next to the stars, too
Baby just me and you,
You're everything to me
You're all I'll ever need!

Chorus:

She's got me running around,
Magazines, columns, trying to figure it out!
Pictures like the paparazzi... down the freeway,
She's got me thinking about a scandal!
She's got me thinking about it,
She's got me thinking about it!
Got me thinking, got me thinking,
Got me thinking about it!
She's got me thinking about it,
She's got me thinking about it!
Hey! she's got me thinking about a scandal!
