Chorus

I remember back in high school  
When I was trying to date you  
Love... back and forward  
Uu I used to hate you  
My name your name sitting in a tree  
Running... school bus you are sitting next to me  
Summer vacation playing hide and go get it  
Now you are telling me to wait baby I don't get it  
Yes so I maybe so tell me if you waited got a... from  
the... control  
You want us to split it  
Like a clear back pack girl  
I see right through you  
The feelings that you have  
You can't imagine what a...  
Control me set  
I got to... like a computer  
Got my head lying down while I am lying on my scooter  
Part one of the...  
People asking what's gonna happen  
I am not a fortune teller so I am just gonna stick to...  
Cause baby I'm gonna let her do...  
The first thing I need is you

Chorus

Every night  
I ask myself  
How we got here  
I am afraid to close my eyes  
Cause it's not real  
What the future holds

... I must see you  
Being in the same class  
The way through the office  
Teacher cannot get the scene pass  
First time we really kissed  
First time we really kissed

I don't know what happened  
Something hit me like a thunder...  
Share the same feelings  
Share the same locker  
If I try to take it further  
It will be improper  
Buy a little pressure  
Telling everybody is doing it  
But I don't wanna stress her  
Cause it just might ruin it

Chorus

... picture  
Taking... figures  
Getting not in just my imagination  
So close to graduation  
And when you... to all the things closing after  
All this time I... by the rules  
So tonight will be the night  
He throw caution to the window... inside but all my  
friends  
Can't believe that we did it  
I admitted it was worth the wait  
Soul mates after my... got the perfect...

Now it's after college  
And I promise it gets better  
Everything we need to learn  
Won't be told by the professor  
The campus is so big  
It's like a whole another world  
I am nervous you should notice  
And all these other girls  
I am just trying to reassure you  
No., I am not cheating  
I am just wrestling with my feelings like...  
I am jumping off the radar put a ring on your finger  
I let you make the college till you turn back to the ring
