Its 3 o clock in the morning
Im having trouble sleeping tonight
Feeling so sad and lonely
Girl, coz you're not here by my side
I just need you to hold me
To put the light back in my life
Baby dont leave me wounded
Coz my heart is bleeding inside (bleeding inside)

Dont leave me girl
Say that you'll stay
You are my world
Dont ever walk away (please dont go)
Dont leave me girl
Say that you'll stay
Im fading away (please dont go)

Please dont go
Doctor doctor doctor
Check on me
Im feeling shortness of love
And I cant breathe (please dont go)
Doctor doctor doctor
Rescue me
Connect my heart to your love support machine (please
dont go)

Baby you aint gonna do this
No, Im going out of my mind
My heart beat is slowing down
I feel like dying inside
Tell me why cant we work things out
And why you leaving me empty (empty)
Girl this is crazy (please dont go)

Dont leave me girl
Say that you'll stay
You are my world
Dont ever walk away (please dont go)
Dont leave me girl
Say that you'll stay

Im fading away (please dont go)

Please dont go
Doctor doctor doctor
Check on me
Im feeling shortness of love
And I cant breathe (please dont go)
Doctor doctor doctor
Rescue me
Connect my heart to your love support machine (please
dont go)

Doctor doctor doctor
Check on me
Im feeling shortness of love
And I cant breathe (please dont go)
Doctor doctor doctor
Rescue me
Connect my heart to your love support machine

Coz if you leave
I wont last a single day without you
My heart wont take the pain
Tell me that youll stay with me

(Please dont go girl)
Please dont go
Please dont go
Please dont go
Please dont go girl
I dont wanna see you go
Please dont go
Please dont go
Please dont go
Please dont go girl (just say that youll stay with me)
Say that youll stay with me
Please dont go
Please dont go
Please dont go
Please dont go girl (Dont ever leave)
I dont wanna see you go
Please dont go
Please dont go
Please dont go (dont go)
Please dont go girl (dont go)

Doctor doctor doctor
Check on me
Im feeling shortness of love
And I cant breathe (please dont go)
Doctor doctor doctor

Rescue me
Connect my heart to your love support machine

Doctor doctor doctor
Check on me
Im feeling shortness of love
And I cant breathe (please dont go)
Doctor doctor doctor
Rescue me
Connect my heart to your love support machine (please
dont go)

(Please dont go girl)
Please dont go
Please dont go
Please dont go
Please dont go girl
I dont wanna see you go
Please dont go
Please dont go
Please dont go
Please dont go girl (just say that youll stay with me)
Say that youll stay with me
