Feat. Pitbull

Oh girl it's crazy what you're doing to me  
Can't get you out my and all in my dreams  
I can't help it I don't really want to  
I'm so far gone, I'm addicted to you

All the lights in the move  
I'm spinning around, three shots and I'm feeling in  
now  
Baby where are you now? Uh, you know that you're my  
dream girl  
I wanna be wherever you are, how did I let you get  
away?  
You're my dream girl, you put steel in my heart  
It's written all over my bed, you're my dream girl

I'm not very far, baby can we meet in the middle?  
You're my dream girl, I'm not very far  
Twitter say that I'm more than this segnor

Girl the way your body talks  
Every time your body walks  
Sexy from there to toe  
On the one way girl you're still the show  
and with the Gucci personality  
Gotta get my mind right cause girl you got the best of  
me  
All the rights in the room are spinning around, three  
shots and I'm feeling in now
