When I tried to write a special song
A love song just for you
to explain the way you make me feel inside
though the meaning may be simple
and the words may not be new
I couldn't make it clearer if I tried

I need you
And I couldn't live a day without you
I need you
More than anyone could ever know
Oh I need you
And I wanna build a world around you
I need you, I need you

Well I sang the words and realized
they've all been said before
So I tried a different line if viewed the same
But it didn't have the feeling
And the first one said much more
So I guess I'll have to say it once again

I need you
And I couldn't live a day without you
I need you
More than anyone could ever know
Oh I need you
And I wanna build a world around you
I need you, I need you

I need you woo a woo
I need you
I need you oh oh oh
I need you
