Girl, why you look so sad
Why you sitting there crying all alone?
Tell me is it worth it

And girl, you ain't got no shame
He must be insane to hurt you
You know what I would do

If you want I could be your number one
Lift you higher than the sun
Might sound crazy
But crazier things have happened

Tell you what, I could be your place to run
Do what that dude's never done
Show you love, my heart, my soul
I promise, baby

If he can't be what you need
Then girl you better roll with me
Can't nobody do it like me
So girl, come with me

No, he can't be what you need
Girl, you better roll with me
Can't nobody do it like me
I want you beside me, yeah

You are so beautiful
You deserve better
Better than him, yeah

So leave everything behind
And ride together
And I promise that I'll never let you down

If you want I could be your number one
Lift you higher than the sun
Might sound crazy
But crazier things have happened

Tell you what, I could be your place to run

Do what that dude's never done
Show you love, my heart, my soul
I promise, baby

If he can't be what you need
Then girl, you better roll with me
Can't nobody do it like me
So girl, come with me

No, he can't be what you need
Girl, you better roll with me
Can't nobody do it like me
I want you beside me, yeah

If he can't understand
Then I can take his place
Come and take my hand
I wanna take his place

Let me be your man
I need to take his place
I know that I can
I'm gonna take his place, yeah

If he can't be what you need
Then girl, you better roll with me
Can't nobody do it like me
So girl, come with me

No, he can't be what you need
Girl, you better roll with me
Can't nobody do it like me
I want you beside me

If he can't be what you need
Then girl, you better roll with me
Can't nobody do it like me
So girl, come with me

No, he can't be what you need
Girl, you better roll with me
Can't nobody do it like me
I want you beside me, yeah

If he can't be what you need
You better roll with me
Can't nobody do it like me
No, he can't be what you need
