[Verse 1]

You mean to tell me after all this time
You've been accusing me
When it was really you (Really you)
You mean to tell me that the tears you cried
They were full of lies
'Cause it was really you (Really You)
I know I should have left you one thousand times (One
thousand times)
But you convinced me to give it one more try (One
more try)
Love knows how much I've sacrificed
And how hard I've tried, Girl!

[Chorus]

How could you?
Go and mess around on me
How could you?
Sacrifice everything (Sacrifice everything)
Can't believe you just let it go
We're supposed to be inseparable
Don't understand girl, I got to know
How could you? (How could you?)
How could you? (How could you?)

[Verse 2]

Whole world is about to fall
So you know I had to call
Let me ask you a question
Were you sure it was her?
She was out with two friends
Hiding her identity
She knew she was busted
When she saw it was me
I gave her everything I man can give (I know)
And now I'm sitting here regretting it (For sure)
This ain't the way it's supposed to be
But the worst part is
What about our kids?

[Chorus]

How could you?
Go and mess around on me (oh-ho)
How could you? (Sacrifice)
Sacrifice everything (Sacrifice everything)
Can't believe you just let it go
We're supposed to be inseparable
Don't understand girl, I got to know
How could you? (How could you?)
How could you? (How could you?)
How could you? Baby

[Bridge]

We were supposed to be inseparable
Can't believe it now I got to let you go (We were)
I'm goin' out of mind
Trying to understand
Tell me how

[Chorus]

How could you?
Go and mess around on me (Go and mess around on
me)
How could you?
Sacrifice everything (Everything, everything)
Can't believe you just let it go
We're supposed to be inseparable (Inseparable)
Don't understand girl, I got to know (How could you)
How could you? (How could you?)
How could you? (How could you?)

You hear me say
Oh, whoa, oh
That's my heart breaking
That's my heart breaking
That's my heart breaking
My heart
I'm saying,
Oh, whoa, oh-ho
Is your heart breaking?
Is your heart breaking?
Is your heart breaking?
Oh, whoa, oh
That's my heart breaking
That's my heart breaking
That's my heart breaking
Oh, whoa
That's my heart breaking
That's my heart breaking
