Visit "[What's A Man To Do](#)" on [MotoLyrics.com](#)

Ayo, you see I got this little situation right
You see my shorty, she be trippin' sometimes
And I'm just been to let ya'll know what it's all about

Ayo, listen to my story
Come on, come on
Ohh, uhh

Well, it all started on a late night creepin'
I planned my getaway, 'cause my shorty she was
trippin'
Just trying to get out to breathe a little different air
If you know what I mean, yeah

So as I'm jumping out the window of my room
I hear my homies calling out, they're on the move
Driving Escalades and Hummers with them blades
Hiding behind shades, ready on their way, yeah

So as we driving, we ended up on the strip
We see some hunnies and damn, I just began to flip
'Cause this shorty she be staring straight at me
This sexy fine lady, she be callin' me out now

What's a man to do?
When situations like these come to you, damn
What's a man to say?
When shorty's just drivin' you insane

What's a man to do?
When you and your girl just can't pull through, damn
What's a man to say?
When everything just ain't the same

See I been trying to find a way out of this misery
'Cause only God knows this is not the way I be
I'm just too young to be stressin' this ain't right for me
So she better act up or I'm gonna straight up and leave

This is not the first time that we go through this
It's 'bout the second, third, fourth maybe even fifth
And I've been trying to work it out only with you, babe

So listen close 'cause not all men are the same

So what's a man gotta do? So we work this
I've just about tried almost everything I can
So let me learn you something then you better learn
right quick
Girl, get your act together, I'm about to have a fit

What's a man to do?
When situations like these come to you, damn
What's a man to say?
When shorty's just drivin' you insane

What's a man to do?
When you and your girl just can't pull through, damn
What's a man to say?
When everything just ain't the same

Come on
Can you feel me?
Oh, yeah
That's right

What's a man to do?
When situations like these come to you, damn
What's a man to say?
When shorty's just drivin' you insane

What's a man to do?
When you and your girl just can't pull through, damn
What's a man to say?
When everything just ain't the same

What's a man to do?
When situations like these come to you, damn
What's a man to say?
When shorty's just drivin' you insane

What's a man to do?
When you and your girl just can't pull through, damn
What's a man to say?

What's a man to do?
