My little one as the years go by  
There may be times when your heart will cry  
And if your in need of a word of cheer  
You can always turn to me

My little one though I love you so  
There'll come a day I must let you go  
But you'll have my love for eternity  
Little one you are everything to me

Spoken verse

My darling I love you so much  
So much there's nothing in the world nothing that I  
Wouldn't do for you  
And it gives me such a wonderful feeling to know your  
Mine  
Fills me with more happiness than I've ever known  
before  
And each night as you slip off to dream land  
I thank heaven for giving me you  
Spoken verse ends

My little one though I love you so  
There'll come a day I must let you go  
But you'll have my love for eternity  
Little one you are everything to me
