(backing when you're in love ooo when you're in love
ooo)

When you're in love
Life will be but a song
Heaven above yours will be ever long
Your soul will be aflame
With madness you can't tame

You tremble when you find
Love is not blind
When you're in love

You'll know joy
Unsurpassed
The magic of girl and boy
Yours at last

And then each day will be like spring
Your heart will start to sing
When your in love

musical interlude

When you're in love
You'll know joy
Unsurpassed
The magic of girl and boy
Yours at last

And then each day will be like spring
Your heart will start to sing
When your in love
