i can see
the lights
of a little town
where the stars shine bright
and the moon never drowns
where a man
can find home
and give all
he needs
its my home
and they call it
seabreeze
what a town to live in
what a place to see
i am sure
you'll give in
to the joy and the lead
when its mine
its all mine
you wont want to leave
come with me and ill show you
seabreeze

if you don't
believe what Ive said is true
you should come
with me
and ill show it to you
people sing their somgs
as they go along
to the seas
of a town called
seabreeze
