Be good to yourself - Frankie Miller

To say goodbye cuts me deep inside
Baby I hope it's not farewell
You can count on me when there's a brand new need
All the same i hope it all goes well

CHORUS:

Be good to yourself every day and every night
Get yourself a girl you can depend'll treat you right
Be true to one another 'til your dying day:
May the sun shine down your way

Now the times we had were far from bad
And i hope it comes together once again
But until that time we'll just say goodbye
I'll remember you 'til the very end

CHORUS

BREAK (don't be bad)

CHORUS

CHORUS
