Girl, come running  
Girl, come running  
Girl, come running  
When you get tired of running around  
(running around all over town)  
All of your friends putting you down  
(putting you down all over town)  
Don't do your crying alone  
Well, baby:  
Girl, come running home.  
Someday you'll be feeling so lonely  
(lower than low, nowhere to go)  
Why don't you call me, girl, that's when I'll show  
(I love you so, I love you so)  
Don't do your crying alone  
Well, baby:  
Girl, come running home.  
Was it so bad, girl?  
Just think of what we had.  
I need you so (come on, baby)  
Woh (come on, baby)  
Don't ever go (come on, baby)  
Woh (come on baby)  
You're gonna get now feeling so blue,  
(bluer than blue, baby, it's true)  
And don't you forget that I'm feeling it too.  
(bluer than you, baby, it's true)  
Well, don't do your crying alone (all alone)  
Well, baby:  
Girl, come running,  
Girl, come running,  
Girl, come running home.  
Come on, baby, come on, baby, come on, baby  
Come on, baby, come on, baby
