I used to have a crush on you
But I'm over it now
What a stupid thing to do
But I'm over it now
I've been down since your arrival
Not a thought for my own survival
I must have lost it for a minute there baby
But I'm over it now
Now I'm back there living in a world so real
Where the cold wind blows through the forests of steel
Ain't you gonna to tell me how you really feel
Cause I'm over it now
I lost my senses for a little while
But I'm over it now
Has some pretenses for a little while
But I'm over it now
You were just a passing sensation
I'm going back to my old operation
Back on the fences with a shrug and a smile
Cause I'm over it now
Back there living in a world so real
Where the cold wind blows through the forests of steel
Ain't you gonna to tell me how you really feel
Cause I'm over it now
