Watch the flowers grow, watch 'em grow
Did you ever see a flower grow?
If you did then you would surely know
Love is like the flowers, takes a lot of hours
If you really want to know watch the flowers grow

Listen to my thoughts and take a ride
I shall give you all you've been denied
First you gotta slow down, listen to my sweet sound
If you really want to know, watch the flowers grow
Over the mountain there's a sweet meadow
A breeze is blowin', so take my hand and we can
Watch the flowers grow

Let me take you where the flowers grow
Let me be the one who told you so
I'll love you forever, I will leave you never
Baby let's go, watch the flowers grow

Watch the flowers grow, watch 'em grow
Watch the flowers grow, watch 'em grow
