"Miss You Like Crazy"

There's this girl I like She's always on my mind
I really need her love To get me through the night
She's the one I need The only one I adore
She's the reason I live I would do anything for

I'll be loving you, Girl you know it's true
And I miss you baby, I miss you like crazy
Just don't ask me why, Without you I can't survive In this
life

I miss her so But she doesn't know
How can I tell her That I love her so
She's my dream come true When I'm feeling blue
I wish she'll be mine My sweet Valentine

Will you be there?
Will you always be around?
Will you care?
Would you ever let me down?
