(I, I can't real dream now)

Stop got something that I just gotta say
Take my soul up high, now you got your way
Rewind arguments that you always bring
Nude it all to me when I wanna sing

I've got it on me, but now we're on a run
I had a "Berol" wish it could've won
you are my habit spinning on a spine
and for a make-up, could've take a shot

Chorus:

Now wear my heart
I Wear my heart right on my sleeve
Na can't retreat from where we're falling
Now wear my heart
I Wear my heart right on my sleeve
Na can't retreat when you took away my crown

I Wear my heart right on my sleeve
and you took away my crown
I Wear my heart right on my sleeve
And I can't retreat when you took away my crown

How much more of this ever gotta stand
Forget, ready AIM" shot me like a plant
White flag can't you see kick it to the curve
Loving fuck you and screaming never heard

I've got it on me, but now we're on a run
I had a "Berol" wish it could've won
you are my habit spinning on a spine
and for a make-up, could've take a shot

Chorus:

Now wear my heart
I Wear my heart right on my sleeve
Na can't retreat from where we're falling
Now wear my heart
I Wear my heart right on my sleeve
Na can't retreat when you took away my crown

I Wear my heart right on my sleeve
and you took away my crown
I Wear my heart right on my sleeve
And I can't retreat when you took away my crown

Na can't stop
Na na can't breathe
No more hearts go
From, from my sleeve

Noooooooooo

And hell took away x3

Took away my crown

I wear my heart
I Wear my heart right on my sleeve
Na can't (no I, No I can't retreaaat)
Wear my heart on my sleeve

Chorus:
Now wear my heart
I Wear my heart right on my sleeve
Na can't retreat from where we're falling
Now wear my heart
I Wear my heart right on my sleeve
Na can't retreat when you took away my crown
