Now I'll take you home
Even if I have to wait for hours
And I'll keep you strong
When you seem to have run out of your super powers
And the candle burns at both ends, and mostly in the
middle
But you are right?, that you can even do better when
you sit still
And don't ya know it's really sad that you might just
forget how to laugh
Chorus
Cos even wonderwoman needs her sleep
And wonderwoman even gets her nails done
And wonderwoman takes a break for her own sake
Not evry turn a battles won

And alright what's you
Did the world just miss it's second meltdown
And if it weren't for you
Would the stars all be tryin to fall on our heads now
And you'd know it's time that you actually try to put
yourself first
And could it be you don't on scene there are better
things
You stop'em being worse
And don't ya know that it's ok to take a rest someday
Chorus
Cos even wonderwoman needs her sleep
And even wonderwoman gets her hair done
Even wonderwoman takes a break for her own sake
Not evry days a battle won
Cos even wonderwoman needs her sleep
Even wonderwoman gets her nails done
Even wonderwoman takes a break for her own sake
Cos not evry days a battles won

I heard evry wonderwoman is a pretty lonesome heart
You should do your best to involve it before you even
start
Cos wonderwoman even gets her naaaaiiillls done
She gets her hair done, she gets her hair done
Alright what's you

Did the world just miss it's second meltdown
Nothing but for you
Cos not evry day a battle is won
