"The World Just Stopped"

Visit "[The World Just Stopped](#)" on MotoLyrics.com

And the world just stopped, just bad
Why does life has such a thin
I can't believe you are not around here no more
And you left an empty ford
All our dreams were just destroyed
And now you're more than far away from home

And I never really said goodbye

This is the way that I honor you my friend
You'll be inside my head until the end
You learned me all that I like to do best
To live it all without you that is a test

And I miss you so

Maybe the whistle didn't blow
And you were gone, that's all I know
It's been a tough time since the day it swept away

With so many dreams unfulfilled
And so many things to rebuild
I know there is no thing above

This is the way that I honor you my friend

You'll be inside my head until the end
You learned me all that I like to do best
To live it all without you that is a test

All these years with you my friend
You'll be inside until the end
Most of the time I wasn't there
I hope you knew that I did care

This is the way that I honor you my friend
You'll be inside my head until the end
You learned me all that I like to do best
To live it all without you that is a test

This is the way that I honor you my friend
You'll be inside my head until the end

You learned me all that I like to do best
To live it all without you that is a test

I miss you so
Why did you go away?
I miss you so
Why did you go?
