Breathe deeply
And kiss me softly
May this last all night

Hold me closely
Tell me you love me
And I'll promise to never leave your side

You spin me round and round
Upside down
Inside out
My love

I want your love
Your soul your rock n' roll

Breathe deeply
Speak softly
Look me in the eye

Sweet angel
With the rose on her ankle
And a warm inviting smile

You spin me round and round
Upside down
Inside out
My love

I want your love
Your soul your rock n' roll

Hey your love
Your soul your rock n' roll
Hey I want your love
Your soul your rock n' roll
Hey I want your love
Your soul your rock n' roll

Hey turn around
Look around

You should stick around
Don't make a sound
Lay down
I won't let you down

Girl you know I won't

Let's take our time
Lose track of time
A thousand time
Let's get high
Lose our minds
It'll blow your mind

Baby blow my mind

You spin me round and round
Turn me upside down
You turn my life inside out

I want your love
Your soul your rock n' roll
Hey your love
Your soul your rock n' roll
I want your love
Your soul your rock n' roll
Hey your love
Your soul your rock n' roll
