"The Raindance"

Visit "[The Raindance](#)" on MotoLyrics.com

We're working on a tightrope wire
They push me but I don't fall down
They're flying but I walk much higher
And still we never leave the ground

There will always be tomorrow
There will be another day
And our hearts will still be singing
And the sound will show the way

No dancing on the factory floor
They hold me but we don't stand still
We never see the sun no more
I guess we never will

We're standing on a tight rope wire
They push me but I don't fall down
We'll stand until the end together
Forever and ever

Chorus

Dance for the memory
Forever and ever - yeah

And we'll dance for the memory
Yes we'll dance to the memory
