Eyes, boring a way through me  
Paralyse, controlling completely  
Now there is a fire in me  
A fire that burns

This fire is out of control  
I'm going to burn this city  
Burn this city  
This fire is out of control  
I'm going to burn this city  
Burn this city  
This fire is out of control  
I'm going to burn this city  
Burn this city  
This fire is out of control  
I'm going to burn it, I'll burn it  
I, I, I'll burn it down

Eyes, burning a way through me  
Overwhelm, destroying so sweetly  
Now, there is a fire within me  
A fire that burns

This fire is out of control  
I'm going to burn this city  
Burn this city  
This fire is out of control  
I'm going to burn this city  
Burn this city  
This fire is out of control  
Then I, I'm out of control  
And I burn, I burn  
Oh, how I burn

This fire is out of control  
I'm going to burn this city  
Burn this city...
