I'm so free I could lacerate
Rip the robes right off my chest
I fly high above the Muscovites' sky
I'm going to rip, rip, I'll never rest

I'm going to meet you at midnight
I'm going to meet you at midnight
I'm not used to living alone
I've got to learn or learn how to die

I'm so free as I'm naked
Shining silver under the moon
It's dark beneath the Muscovites' sky
I'm gonna rip, rip, I'll never sleep

I'm going to meet you at midnight
I'm going to meet you at midnight
I'll forget about living alone
I've got to learn, learn how to die

Margarita, love and destroy

I'm so free as I meet you
Welcoming black, the Queen of the ball
It's dark beneath the Muscovites' sky
But you give, you give me it all

Well I'm here with you at midnight
Well I'm here with you at midnight
I forget about living alone
As I learn, learn how to die

Margarita, love and destroy
