Girl I think about you  
wondering how it feels  
if living is without you  
I know I can't go on..

Can we stop and think about it  
till' we know how it really feels  
make our lives worth living  
love will let it show  
in the end, we'll know,  
love is all there is..

REFRAIN:

You can run but,  
love will always stay..  
no matter how they try,  
love will make you mine

CHORUS:

Let me in to your heart  
love is all that really matters  
even if we're far apart..  
In the end of our lives  
if the world would fall apart  
but our love would still survive  
Then we'll know,  
Love is all there is..

(Instrumental)

(REPEAT REFRAIN)

(REPEAT CHORUS TILL FADE)
