They call me Fraze mother fucker, lemme teach you a lesson,  
Reach for the Wesson, your face splatters in at least a few secondes-  
Peace to the peasants, who cheat for the weapons  
To finally make peace cuz there stressin but there dreams r always molested...

This rawest artist, who has rappinitus-  
Kill u in alaska to get the disease wrapped-in-ice-picks  
I'm nice bitch, but you might wanna take Peptobismal b4  
U listen to try bite this-  
Acid indegestion, so grab your finger, put it in ur throat  
and throw up all of my  
Shit that u mentioned  
Spittin like this Men- Will get somebody ta rock ur shit in  
a car, ipod, tapeplayer or discmen-  
These writtens, grow from trees given by Keoni  
So I PUFF-PUFF neva pass, he actually owes me  
Well The THC is my Brain is fuckin with me everyday  
So I smoke More and More hopin that it goes away  
But even if it goes away, the E pills that I blown away,  
It was from my Nose Okay so don't go chokin on my name okay-  
People love to be Violent, dancin with the devil in riots  
Hold your head at knifewpoint, lets cut off ur fuckin eyelids]  
I'm part lifeless, well life is how u make it while your fucked up aND wanna try shit  
Like Hey lets Slice this wrist HIGH n drunk and see if we can die, get revived n still survive it
