What doesn't mean a thing to you, means everything to me  
Please be careful what you do, because I am trying desperately

To stay afloat, to stay real, to be the person I need to be  
Yet your pathological new man might screw you up permanently

One step forward, one step forward and a million miles back

I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most

I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most

The Infidelity Ghost

Wish you could trust my loyalty, stick with me through thick and thin  
But I am tempted easily, don't want to know where I have been

Anemic blood flows through my veins, an insult to monogamy  
I'm not sure I can dispel, The Ghost of Infidelity

One step forward, one step forward and a million miles back

I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most

I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most

The Infidelity Ghost

One step forward, one step forward and a million miles  
backâ€¦

The Infidelity Ghost, the Infidelity Ghost, Ghost

I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most

I'll be your one-girl guy, if you'll be my one-guy girl  
One-guy girl

\_I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most

I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most

I'll be your one-girl guy, if you'll be my one-guy girl  
But there's one thing I fear the most (the infidelity  
ghost)

I'll be your one-girl guy, if you'll be my one-guy girl (the  
infidelity ghost)  
But there's one thing I fear the most

The Infidelity Ghost, the Infidelity Ghost, Ghost, Ghost!
