Some people been driving too fast  
Some people still having a gas  
But if there's one thing you gotta concede,  
You gotta know who's driving you car,  
You get to fifth gear with you foot on the floor  
Or else you're starring in "a cruise too far".

Turn on, tune in, cop out.  
Let it flow now mama,  
Let it flow become a woman.

Some people been wasting their time  
Some people expanding their minds  
But if you've known love like the jokers before  
The you're likely to be home on the range

No more the cowboy gonna flaunt his wares  
He's been grazing on a different plain.

Turn on, tune in, cop out  
Let it flow now mama  
Let it flow become a woman

It's not easy to see why there's a thousands of people  
Are regularly turning it out  
It's easy to find when you mess with your mind  
That you've gone beyond a reasonable doubt...

Turn on tune in cop out  
Let if flow now mama  
Let it flow become a woman.
