pain x3

i was dying
so you broke the glass
im still breathing
but im fading fast
i was blinded
so you gave me sight
so i could see the light

i was drowning
so you pulled me out
im still fightin
but im sinking down
i was crawling
so you made me stand
so i could live again

chorus:

theres no where to run
been out here so long
and my feelings are numb
been out in the cold
feelings are gone

theres no where to run
been out in the cold
and my feelings are gone
been out in the cold
feelings are gone

pain x3

i was haunted
but I could not face
an addiction
that was in my veins
A confession to make it right
so now you see the light
i was choking,
so you gave me air

Self destruction but i didnt care
i was wounded so you stopped the pain
so i could see the way
chorus:

theres no where to run
been out here so long
and my feelings are numb
been out in the cold
feelings are gone

theres no where to run
been out in the cold
and my feelings are gone
been out in the cold
feelings are gone

some day youll taste the pain that im (PAIN) feeling
some day youll taste the pain - (PAIN)
some day youll taste the pain that im (PAIN) feeling
some day youll taste the pain - (PAIN)

chrous:

theres no where to run
been out here so long
and my feelings are numb
been out in the cold
feelings are gone

theres no where to run
been out in the cold
and my feelings are gone
been out in the cold
feelings are numb
some day youll taste the pain that im (PAIN) feeling
some day youll taste the pain - (PAIN)
